Book Production MANAGER ^{a,1}, Second AUTHOR ^a and Third AUTHOR ^b

^a *Short Affiliation of Book Production Manager and Second Author*

^b *Short Affiliation of Third Author*

Abstract. The abstract should summarize the contents of the paper. It should be clear, descriptive, self-explanatory, a single paragraph and not too long. It should contain no references. It should also be suitable for publication in abstracting services.

Keywords. Camera ready manuscript, L^AT_EX 2_ε, book, style

Introduction

Note that this section, along with **References**, **Acknowledgements** and any **Appendix** sections are *unnumbered*.

This document was prepared with L^AT_EX 2_ε, using the ‘cpa2017’ class file. See the L^AT_EX source file ‘template.tex’ for how to set this up.

Audi caelum, verba mea, plena desiderio et perfusa gaudio. Dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut beneficam. Dic nam esta pulchra ut luna electa, ut sol replet laetitia terras, caelos. Maria virgo illa dulcis, praedicata de propheta porta orientalis [1].

1. Special Points for CPA-2017

1.1. Author Information

If author affiliations are the same, there is no need to use super-scripted markers. For example:

```
\author{\fnms{Peter} \snm{WELCH}}~and~\author{\fnms{Fred} \snm{BARNES}}  
\address{Computing Laboratory, University of Kent,\\%  
Canterbury, Kent, CT2 7NF, England.\\[4pt]%  
{\small \{\tt P.H.Welch\}~,~{\tt F.R.M.Barnes}\}~{\tt @kent.ac.uk}}}
```

If (as in the above) there is room for full address(es), there is no need for the footnote below giving the full contact details for one *Correspondence Author*. Note the email addresses are set in a small typewriter font when included as part of the contact info — looks better than a normal sized version. Note also the use of explicit spacing in places, in particular separating the authors from “and”, and, between the address and email (4 points).

1.2. Running Headers

Note the special header for this title page. Do not change it! Subsequent pages have running middle headers that are set by:

¹Corresponding Author: *Name, Complete address*. Tel.: +1 222 333 4444; Fax: +1 222 333 0000; E-mail: b.p.manager@somewhere.com.

```
\runningtitle{Style Guidelines for CPA Proceedings}
\runningauthor{B.P. Manager et al.}
```

where the *running title* is a shortened (if necessary) form of the paper title. The example given for *running author* is the pattern to use for three or more authors. For two authors:

```
\runningauthor{A.B.Author and P.Q.Other}
```

and for one author:

```
\runningauthor{A.B.Author}
```

1.3. Your CPA-2017 Page Budget

Your final paper should have the right number of pages for its content. There is no general budget, though the editor may have special concerns for each paper as a result of referees' reports. You may assume that your first page number will be odd — i.e. that your paper will start on a right-hand page in the proceedings.

If your paper is accepted, one of the Proceedings editors will be nominated to work with you towards your producing final camera-ready copy, taking into account the feedback from the referees (and all the style guidelines in this document). Please keep your editor regularly informed of progress during this very important stage. As soon as possible, please email the number of pages in your final copy to:

cpa2017@wotug.org

1.4. Submitting Final Camera-ready Copy

You must email *your nominated editor* and the address given in Section 1.3 a gzipped tar-ball containing the PDF of your camera-ready copy *and all sources needed to re-generate it*. These sources include all .tex, .cls, .eps etc. files used, including the cpa2017.cls file.

1.5. Header Capitalisation

All section, sub-section, sub-sub-section (etc.) headers should be capitalised as shown in this document. Use initial capitals for all words other than articles (a, an, the), conjunctions (and, or, not) and prepositions (at, from, to) — unless one is the first word in a heading. Note: these rules also apply to the main paper title and (shortened) running-header title.

1.6. Problems with the Style File

Any problems with using cpa2017.cls, please email:

cpa2017@wotug.org

2. Headers, Sub-Headers, Figures and Tables

Isi aedificaverit domum, in vanum laboraverunt qui aedificant eam. Nisi custo-dierit civitatem, frustra vigilat qui custodit eam. Vanum est vobis ante lucem surgere: surgite postquam sederitis, qui manducatis panem doloris [2].

2.1. Figures

Dic nam esta pulchra ut luna electa, ut sol replet laetitia terras, caelos. Maria virgo illa dulcis, praedicata de propheta porta orientalis (see Figure 1). Nigra sum, sed for-mosa, filiae. Ideo dilexit me rex et introduxit me in cubiculum suum et dixit mihi. Surge, amica mea, et veni. Iam hiems transiit, imber abiit et recessit, flores apparuerunt in terra nostra. Audi caelum, verba mea, plena desiderio et perfusa gaudio.¹

Please include image in PDF (preferably) or PNG format. Figures should not be boxed – the box and this text represents the image.

Figure 1. Figure caption.

Note that figure captions are *below* the figure. They should normally be centred — unless they are several lines long, in which case they should be left-and-right-justified.

2.2. Tables

Unlike figures, table captions are *above* the table. They should normally be centred — unless they are several lines long, in which case they should be left-and-right-justified. An example of a short caption is given in Table 1.

Table 1. Cell cycle times for the two models

Generation Rate (n / 256)	'Busy' (ns)	'Lazy' (ns)
0	650	0
1	660	8
2	670	12
4	680	14
8	700	16
16	740	18
32	1070	0

On the other hand, Table 2 has rather a long caption.

Table 2. This is a very long caption ... dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut beneficam. Isi aedificaverit domum, in vanum laboraverunt qui aedificant eam. Nisi custo-dierit civitatem, frustra vigilat qui custodit eam. Vanum est vobis ante lucem surgere: surgite postquam sederitis, qui manducatis panem doloris.

First	Line
Second	Line
First	Nationi, et iudicia sua non manifestavit eis. Et exultavit spiritus meus in salutari meo
Second	Et misericordia eius a progenie

Please only include horizontal lines in tables — no *vertical lines*.

¹Some footnote.

2.3. A Little Longer Header, with Punctuation, of course

2.3.1. Followed by a Sub-Header

Dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut benefi-cam. Dic nam esta pulchra ut luna electa, ut sol replet laetitia terras, caelos. Maria virgo illa dulcis, praedicata de propheta porta orientalis. Tempus putationis advenit. Illa sacra et felix porta, per quam mors fuit expulsa, introduxit autem vitam. Quae semper tutum est medium inter homines et deum, pro culpis remedium.

$$u(x, y, z) = u_1(x, y, z) + u_2(x, y, z). \quad (1)$$

Omnes hanc ergo sequamur qua cum gratia mereamur vitam aeternam. Consequamur. Praestet nobis deus, pater hoc et filius et mater praestet nobis. Pater hoc et filius et mater cuius nomen invocamus dulce miseris solamen.

3. Program Code

Program code should be in a fixed-width with point size 10 (or, possibly, 11). The following makes use of the *listings* package (with settings defined near the start of this template file):

```
void gproc_tmp_1_086fa280 (Workspace wptr3)
{
    Channel* out0 = ProcGetParam (wptr3, 0, Channel*);
    int* v = ProcGetParam (wptr3, 1, int*);
    ChanOut (wptr3, out0, v, 4);
}
```

4. Environments

4.1. Description

Ui posuit fines tuos pacem, et adipe frumenti satiat te. Qui emittit eloquium suum terrae; velociter currit sermo eius.

Example unnumbered list: vanum est vobis ante lucem surgere. Surgite postquam sederitis, qui manducatis panem doloris.

And also: cum dederit dilectis suis somnum.

Finally: cce haereditas filii: merces, fructus ventris.

Nationi, et iudicia sua non manifestavit eis. Et exultavit spiritus meus in salutari meo. Quia respexit humilitatem ancillae suae, ecce enim ex hoc beatem me dicent omnes generationes. Quia fecit mihi magna qui potens est; et sanctum nomen eius.

4.2. Enumerate

Nationi, et iudicia sua non manifestavit eis. Et exultavit spiritus meus in salutari meo. Quia respexit humilitatem ancillae suae, ecce enim ex hoc beatem me dicent omnes generationes. Quia fecit mihi magna qui potens est; et sanctum nomen eius. Et misericordia eius a progenie in progenies timentibus eum. Fecit potentiam in brachio suo, dispersit superbos mente cordis sui.

1. Example numbered list: vanum est vobis ante lucem surgere. Surgite postquam sederitis, qui manducatis panem doloris.

2. Cum dederit dilectis suis somnum.
3. Cce haereditas filii: merces, fructus ventris.

Sicut sagittae in many potentis: ita filii excussorum. Beatus vir qui implevit desiderium suum ex pisis: non confundetur cum loquetur inimicis suis in porta. Sicut erat in principio et nunc et semper, et in saecula saeculorum. Audi caelum, verba mea, plena desiderio et perfusa gaudio. Dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut beneficam.

4.3. Itemize

Beatus vir qui implevit desiderium suum ex pisis: non confundetur cum loquetur inimicis suis in porta. Sicut erat in principio et nunc et semper, et in saecula non confundetur cum saeculorum. Dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut beneficam.

- Example itemized list: et exultavit spiritus meus in salutari meo. Quia respexit humilitatem ancillae.
- Emittet verbum suum, et liquefaciet ea; flabit spiritus eius, et fluent aquae.
- Sagittae in many potentis: ita filii excussorum. Beatus vir qui implevit desiderium suum ex pisis: non confundetur cum loquetur inimicis suis in porta.

Sicut erat in principio et nunc et semper, et in saecula saeculorum. Audi caelum, verba mea, plena desiderio et perfusa gaudio. Dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut beneficam. Dic nam esta pulchra ut luna electa, ut sol replet laetitia terras, caelos.

5. Quotation

Beatus vir qui implevit desiderium suum ex pisis: non confundetur cum loquetur inimicis suis in porta. Sicut erat in principio et nunc et semper, et in saecula non confundetur cum saeculorum. Dic, quaeso, mihi: quae est ista, quae consurgens ut aurora rutilat ut beneficam.

“Vanum est vobis ante lucem surgere: surgite postquam sederitis, qui manducatis panem doloris. Praestet nobis deus, pater hoc et filius et mater praestet nobis.

“Nisi custodierit civitatem, frustra vigilat qui custodit eam. Cum dederit dilectis suis somnum: ecce haereditas filii: merces, fructus ventris. Sicut sagittae in many potentis: Ita filii excussorum.”

Acknowledgements

Reminder: this section, along with the **Introduction**, **References**, and any **Appendix** sections are *unnumbered*.

Praestet nobis deus, pater hoc et filius et mater praestet nobis. Pater hoc et filius et mater cuius nomen invocamus dulce miseris solamen. Dum esset rex in accubitu suo, nardus mea dedit odorem suavitatis. Quoniam confortavit seras portarum tuarum, benedixit filiis tuis in te. Qui posuit fines tuos pacem, et adipe frumenti satiat te [1,3].
